VALVES

We supply **The valves** which are Designed for high-performance and efficient operation. It uses silicon based grease for lubrication and easily operates at all pressures and temperatures while requiring only occasional lubrication. Low-torque operation results in the need for a less expensive actuator and less maintenance. Our valves are also supplied with PTFE sleeved and materials available in Cast iron, Carbon steel , ss 304 & ss 316 or any special material required by the user.

These valves are passed through stringent quality parameters required by international standards like API, ANSI, BS, IS, DIN STANDARDS.

We can also arrange for manufacture of special valves as per customers' Design and Requirements.

Product Range

Ball valves, Gate valves, Check valves, FCS valves, Butterfly valves, Globe valves, Plug valves, Strainer (angle and Y type), Cast iron valves, Diaphragm valves, Control valves, Knife gate valve, Ball check valve etc.

COUPLINGS

We are supplying the couplings manufactured by an ISO 9001:2008 certified company with over 45 years of experience in making mechanical power-transmission products, their fine manufacturing machinery can turn out defect free components every time. We can supply any type of coupling to take care of your specific needs. These couplings are used in **Cement plants, Mining equipments, Fertilizer plants, Refineries, Sugar industries, Paper mills, Steel plants, Pump manufacturing etc..**

Product Range

Elastomer Couplings: Snap Warp couplings, Jaw-Flex Spacer coupling, Flange- Flex couplings, Jaw Flex cushion couplings, RFC couplings, RN/RNS couplings, Cone-flex couplings, Pin Bush couplings, Tyre-Flex coupling, Polygear couplings, Curveflex couplings.
Metallic Couplings: Disc coupling, Gear coupling, Grid couplings Heliflex couplings, universal joints, Rigid couplings, Drive shaft coupling, muff couplings etc

GEAR BOXES

We are supplying different types of **Planetary Reduction Gearboxes** that are extensively used in **Mechanical, Cement, Food, Chemical, Sugar, Agriculture, Transportation, Building, Material Handling Equipment and Marine Industry**. These are of **High Quality, Cost Effective, Energy Efficient** Gear Boxes with wide range of power transmissions and also with **ISO, DIN, BS, IS Standards**. These are manufactured from superior quality raw material such as Alloy Steel EN8/EN9, EN19, EN24/42, CrMo4, SAE8620/17, MnCr/20, MnCr5/EN353, Cast Steel IS: 1030, Gr2/3, CIGR 25/30, GGG40/50 OR SGI Case Carburized Steel and Hardened Steel.

Product Range

Planetary Gearbox – Foot mounted, Planetary Gearbox – Flange mounted, Planetary Geared Motor, Planetary Creep Drive, Crystallizer Drive, Winch Drive, Shaft Mounted Reducers.

CONTROL SYSTEMS

Control Techniques has developed a device for multi-way switching of drive control cables via contactors which, it says, could cut capital costs, make operation more flexible, add redundancy at a low cost, and improve efficiency.

We are supplying the drives, in ratings from 0.55 - 250 kW, 208 - 690 V, using the best control panels, parameters, accessories and engineering tools manufactured by leading companies in the world.

CONVEYOR BELTS & ANTI-VIBRATION PRODUCTS

We offer most of our standard product range off-the-shelf. We also undertake manufacturing tailor made Anti Vibration Mounts as per customer's application requirements. Installation related factors and the extent of vibration, shock, deflections and noise to be corrected in the operating environment must be considered in each application. Also undertake manufacture and supply of Conveyor Belts & V-belts

Product Range

Machine Pad, Round Leveling mounts, Precision Wedge Mount, Bolt- on Wedge Mount, Rubber Below (air sprint or machine suspensor), FabRUB Spring, Base mounts, Cushy Foot Mounting, Sandwich Mounts, Base Screw Support Mounts, Cylindrical Mounts, Isolating Washers

Conveyor Belt, PVC conveyor Belts and V-Belts

BRIEF ABOUT CHLORIS....

With headquarters in Mumbai, India, CHLORIS ENTERPRISES INDIA PVT LTD., provides the supply and support of various Industrial components to all the major industries around the globe. It brings a fresh and innovative approach to the Industrial consulting services, acting as liaison between the end-user and the manufacturer. Our goal is to exceed the expectations of every client by offering quality products, timely customer service, increased flexibility, and greater value with improved operation efficiency. Our associates are distinguished by their functional and technical expertise combined with their hands-on experience, thereby ensuring that our clients receive their requirements with the quality assured, most effective and professional after sale service.

As experts in supply, technical support and distribution chain, we are involved in every stage upon clients selection of the product from implementation to completion offering continual functional and technical support. Our extensive skills encompass all aspects of implementation and operation.

In order to meet the individual needs of clients, CHLORIS ENTERPRISES INDIA PVT. LTD. maintains a wide range of manufacturers. We excel in the power transmission products like COUPLINGS, VALVES and GEAR BOXES. At CHLORIS, we are continually expanding our client base and services to assist clients with successfully supplying and supporting throughout various locations. Understanding the application and the customer's needs has been at the core of all the activities at CHLORIS. We, at CHLORIS, understand the specific needs of the client. Every product supplied by CHLORIS is selected by thoroughly studying the technical details and specifications, the entire system characteristics and the surrounding conditions that may affect the optimal performance of the product.

The highest level of quality assurance procedures are followed in making all our products which ensures that there are no deviations from the customer's expectations and that the products perform their desired duty with a high level of reliability and durability.
